INFORMATION FOR SPEAKERS

Please be in the room prior to the session.

Speakers of contributed talks, please note that your talk is scheduled for **15 minutes** plus discussion.

The format of discussion depends on the kind of session you are in:

- [useR! Kaleidoscope](#)

These sessions with oral presentations of 15 minutes each will give a broad overview of the many different applications and usages of the R system that should appeal to a broader audience. Each talk is directly followed by a discussion.

- [useR! Focus Sessions](#)

These sessions with oral presentations of 15 minutes each will focus on topics of special interest and their goal is to provoke fruitful discussions in the respective user communities. In focus sessions, plenty of time for discussion is reserved at the end of the whole session (rather than after each talk) to discuss all talks of the topic together.

- [Technical details](#)

All lecture rooms are equipped with a laptop and an LCD projector. Presentation should be in PDF (preferred!) or PPT (Office XP available only) file (unless the presenters need their own laptop for software demonstrations).

INFORMATION FOR SESSION CHAIRS

Please make sure that each talk (without discussion) is finished after 15 minutes (40 minutes for invited lectures) in order to allow time for discussions and guarantee a smooth realization of the schedule.
