- Deuxièmes Recontres R
- IV JORNADAS
- JSM2013
- Meielisalp 2013
- useR! 2013
- WZUR2012

Contributed Software

R PACKAGES

Since its very early days, Revolution Analytics has contributed software to the open source community. Revolution's experts in parallel computing maintain the following packages on CRAN:

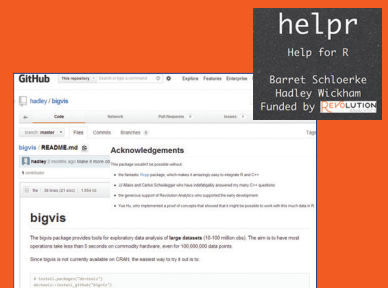

doMC, doParallel, doSNOW, foreach, iterators, nws

Leading the way for integrating R with Hadoop. Recognizing early on that the Hadoop project would become very important for R minded data scientists and statisticians for working with big data Revolution initiated the RHA-DOOP project on Github. Today, the three packages `rmr` (writing map-reduce jobs in R), `rhbase` (querying the HBASE data base) and `rhdfs` (working with the HDFS file system) are the gold standards for using R with Hadoop.

WELCOME!

*In a village of La Mancha, the name of which I have no desire to call to mind,
we are hosting the useR! 2013 conference!*

Dear useRs,

Welcome to the 9th R user conference, useR! 2013, hosted by the University of Castilla-La Mancha in Albacete. Following eight successful meetings, the useR! conference is focused on: R as the ‘lingua franca’ of data analysis and statistical computing; providing a platform for R users to discuss and exchange ideas on how R can be used for statistical computations, data analysis, visualisation and exciting applications in various fields; and giving an overview of the new features of the rapidly evolving R project. The program consists of invited talks discussing new R developments and interesting applications of R, and user-contributed presentations reflecting the wide range of fields in which R is used to analyse data.

The following pages provide you with information regarding the R User Conference, useR! 2013. We hope that you find the conference enjoyable and stimulating, and also hope that you enjoy your time here at the University of Castilla-La Mancha in Albacete.

We would like to thank previous organisers of the useR! conference for their help and advice. In particular, the help of Heather Turner and Matt Shotwell (who have organised the useR! conference in Warwick and Nashville, respectively). They have provided us with materials and tips to make an even better useR! conference.

With kind regards from the useR! 2013 Organising Committee.

Software, education, and services for the R community

RStudio IDE

Take control of your R code

The RStudio IDE is a powerful and productive user interface for R. It's free and open source, and works great on Windows, Mac and Linux. It even runs in a browser with RStudio Server.

Shiny Shiny makes it super simple for R users to turn analyses into interactive web applications anyone can use.

ggplot2 An enhanced data visualization package for R. Create stunning multi-layered graphics with ease.

Rpubs Rpubs is a free publishing service for R Markdown, which weaves together your writing and the output of your R code.

plyr An R package for efficiently manipulating data. Utilize the split, apply, combine method for fast, consistent results.

devtools Developer tools for building R packages. Remove the pains and bottlenecks of package development.

Training *Harness the power of R*

We've got hands-on courses for beginners and even R experts. We'll teach you practical skills you can immediately put to use. Our instructors are available for on-site training, or you can join us at one of our public workshops. Our course catalogue includes: Intro to data science with R, Effective data visualization, Modelling and machine learning, Reports and reproducible research, and Advanced R programming.

Oracle Corporation is proud to sponsor useR! 2013

R for the Enterprise

While many developers and analysts run R programs on their personal computers, sometimes they need more. Oracle has created a broad set of options for using R on data stored in Hadoop or Oracle Database, bringing enterprise caliber capabilities to projects that require high levels of security, scalability and performance. Develop and operationalize R scripts for analytical applications simply and easily —SQL and MapReduce knowledge optional!

For more information, visit oracle.com/goto/R

Please make sure to stop by our booth, to not only network with our Product Experts, but also get an onsite demonstration.

Unleash the agility of R for the Enterprise with TIBCO Enterprise Runtime for R (TERR)

TIBCO Enterprise Runtime for R (TERR) is an enterprise-grade analytic engine that TIBCO has built from the ground up to be fully compatible with the R language, leveraging our long-time expertise in the closely related S+ analytic engine.

TIBCO Spotfire and TIBCO Enterprise Runtime for R enable you to:

- Leverage a Predictive Analytics Ecosystem through seamless integration of your existing investments in R, S+, SAS® and MATLAB®
- Embed the enterprise-class, R-compatible TIBCO Enterprise Runtime for R engine

TIBCO Spotfire is proud to sponsor the useR! Conference, as part of our ongoing support for the vibrant R Community.

For more information on Spotfire Predictive Analytics and TERR, and to try the free TERR Developer's Edition, visit spotfire.tibco.com.

Contact us: TIBCO Spotfire, mds@tibco.com - +44-800-520-0443

PROGRAMME OVERVIEW

Tuesday 9th July

- 08:30 Registration Opens¹
- 09:30 - 13:00 Morning Tutorials
- 13:00 - 14:30 Lunch²
- 14:30 - 18:00 Afternoon Tutorials
- 20:00 - 23:00 Opening Mixer³, sponsored by the Faculty of Economics and Business Sciences, UCLM

Wednesday 10th July

- 09:00 - 09:30 Opening Session
- 09:30 - 10:25 Invited Talk - Håvard Rue
- 10:30 - 11:50 Contributed talks
- 11:50 - 12:20 Tapas Break, sponsored by Revolution Analytics
- 12:20 - 13:40 Contributed Talks
- 13:40 - 15:30 Lunch
- 15:30 - 16:25 Invited Talk - Hadley Wickham
- 16:30 - 17:50 Contributed Talks
- 17:50 - 20:00 Tapas Cocktail and Poster Session, sponsored by Google

Thursday 11th July

- 09:00 - 09:55 Invited Talk - Duncan Murdoch
- 10:00 - 11:20 Contributed Talks
- 11:20 - 11:50 Tapas Break, sponsored by Oracle
- 11:50 - 13:10 Contributed Talks
- 13:10 - 15:00 Lunch
- 15:00 - 15:55 Invited Talk - José Manuel Benítez-Sánchez
- 16:00 - 16:25 useR! 2013 Awards
- 16:30 - 17:50 Contributed Talks
- 17:50 - 18:20 Tapas Break, sponsored by R-Studio
- 18:20 - 19:40 Contributed Talks
- 21:30 - 00:00 Conference Dinner⁴, sponsored by Revolution Analytics

Friday 12th July

- 09:00 - 09:55 Invited Talk - Steve Scott
- 10:00 - 11:20 Contributed Talks
- 11:20 - 11:50 Tapas Break, sponsored by TIBCO
- 11:50 - 13:10 Contributed Talks
- 13:10 - 13:30 Closing Remarks
- 13:30 - 15:00 Lunch/Paella, sponsored by the Dep. of Mathematics, UCLM

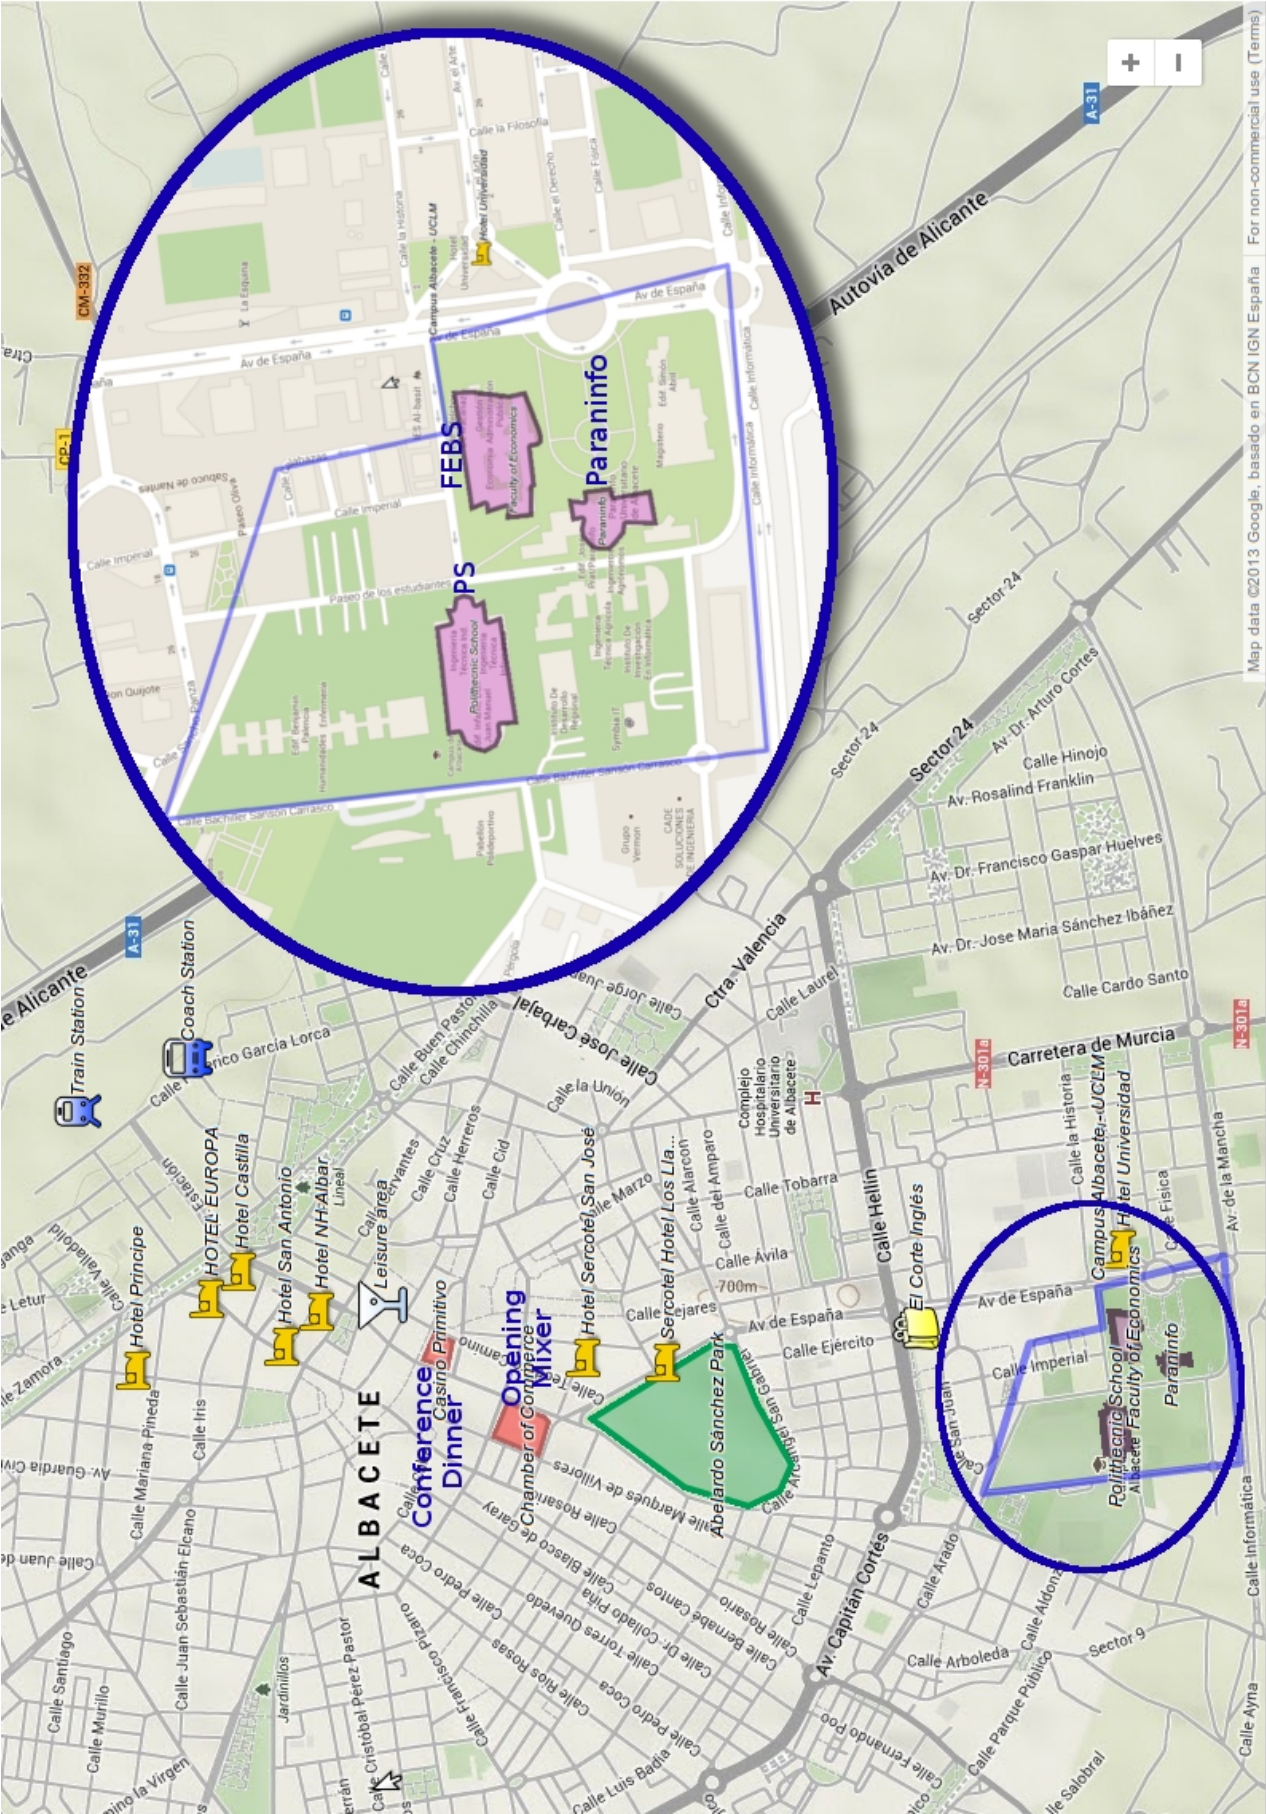

¹the registration desk will be located in the main hall of the Faculty of Economics

²lunch on Tuesday will only be provided for attendees registered for the tutorials

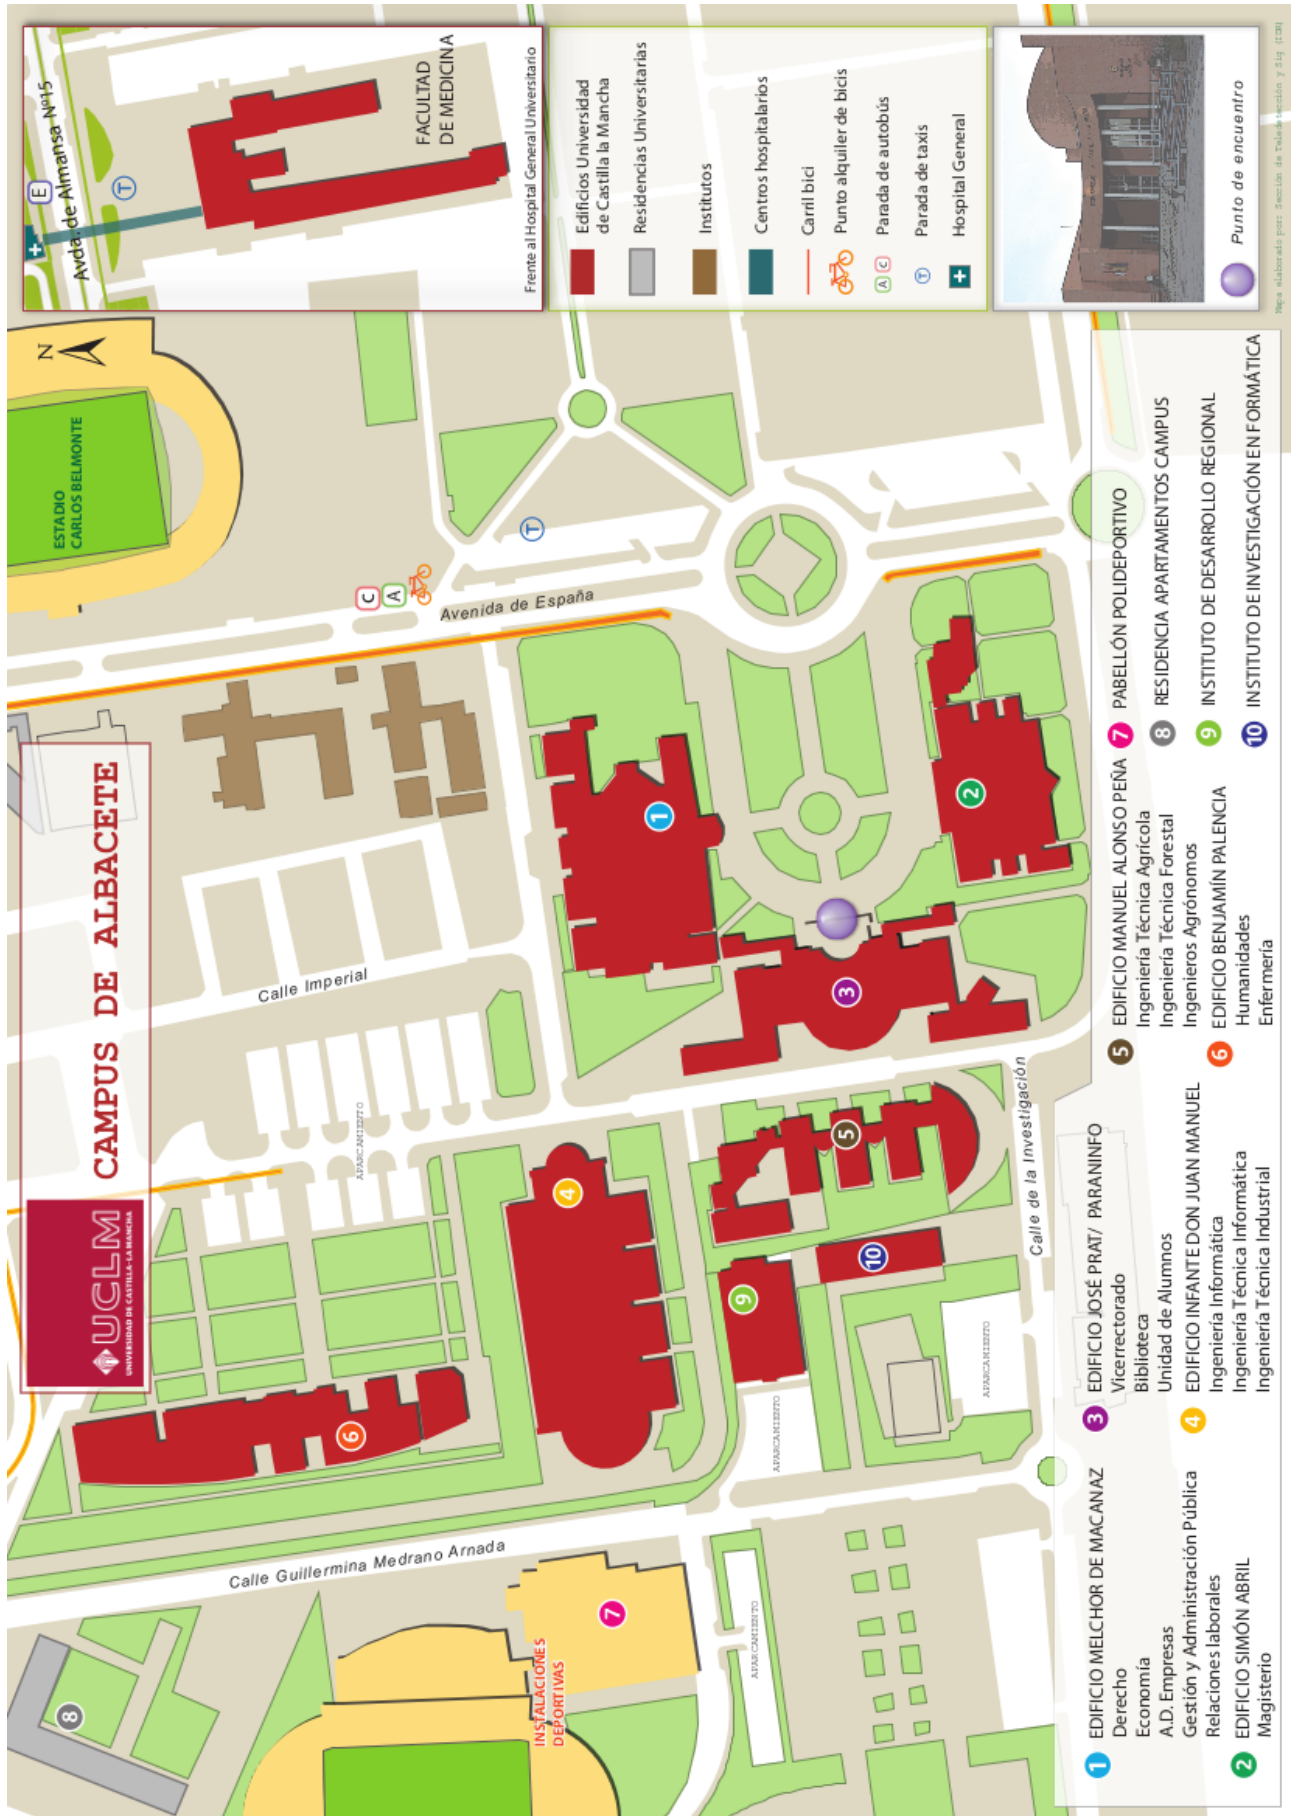

³admission will require to show your conference badge

⁴admission to the Conference Dinner will be via ticket only

Map of Albacete

University of Castilla-La Mancha in Albacete

TRAVEL INFORMATION

Venue

The conference takes place in the

Albacete Campus,
University of Castilla-La Mancha,
Avda. España s/n,
02071 Albacete,
Spain

Tutorials will be held in the Polytechnic School (PS, building no. **4** in the campus map on page **8**), plenary sessions will take place in the “Parainfo” (building no. **3**) and contributed sessions will be presented in the Faculty of Economics and Business Sciences (FEBS, building no. **1**)

Travelling to the University of Castilla-La Mancha in Albacete

Information on getting to the University from main airports and different nearby cities is provided in the conference website at <http://www.edii.uclm.es/~useR-2013/#Travel>. Albacete can be conveniently reached by bus and train from Alicante, Madrid, Murcia and Valencia.

Parking

Complimentary car parking is available in the allocated car parks on campus. If the parking in front of the Faculty of Economics and Business Sciences is full you will probably find some places in the parking by the Polytechnic School. Parking lots can be easily located while driving on campus. Disabled parking spaces are available close to the entrance of main buildings.

Bus

There a number of bus lines that will take you from the city centre to the campus. Bus line A (*Línea A*) stops in the city centre and has another stop close to the Faculty of Economics and Business Sciences. Bus line C (*Línea C*) will take a different route from the city centre until the university campus. Tickets can be purchased on the bus at a cost of €1.20. Bus stops are shown at the top in the campus map on page **8** (next to the bicycle symbol).

GENERAL INFORMATION

Conference registration

Registration for the conference will take place in the hall of the Faculty of Economics and Business Sciences (FEBS, building no. 1). The registration desk will be available during the whole duration of the conference. The staff at the registration desk will be happy to provide any assistance and information to participants.

Internet access

If you have a WiFi enabled laptop you may access basic internet services by connecting to the “uclm_eventos” wireless network. You will need to enter a username and password which will be given to you when you register for the conference. Participants from academic institutions will be able to use the “eduroam” wireless network.

A free access computer room will be open in the first floor of the Polytechnic School from Tuesday morning to Friday afternoon. This room is labelled as *Libre Acceso* in the map on page 14 (top-right). Note that this is an open access room and that it is open to the general public.

Meals

During tutorials, tapas breaks will be provided on the ground floor of the Polytechnic School. Lunch will be served in the hall of the Faculty of Economics and Business Sciences. During the conference, tapas breaks and lunches will be provided in the hall of the Faculty of Economics and Business Sciences.

The Opening Mixer (Tuesday) will be held in the gardens of the Chamber of Commerce (see map on page 7). The Tapas Cocktail and Poster Session (Wednesday) will take place in the hall of Faculty of Economics and Business Sciences. Beer, wine, non-alcoholic drinks and light snacks will be served at both events.

The conference dinner will take place on Thursday in the restaurant “Casino Primitivo”, which is conveniently located in the city centre. See map on page 7.

Other options for meals are snacks include the “cafeterias” on the basement of the Polytechnic School and the first floor of the Faculty of Economics and Business Sciences. There are a number of bars and restaurants by the campus which provide different types of food (including tapas, of course) and drinks.

Messages

The telephone number of porter’s lodge in the Faculty of Economics and Business Science is (+34) 967 59 92 00, Ext. 2105. This telephone number can be used to be contacted in case of an emergency.

Smoking Policy

Smoking is forbidden anywhere in University buildings, including bar areas. Furthermore, smoking is not permitted outside buildings if the smoke is likely to drift through open doors or windows, or inconvenience people entering or leaving the building.

PROGRAM COMMITTEE AND CONFERENCE SPONSORS

Program Committee

Esteban Alfaro-Cortés (Chair)	Michela Cameletti
Ramón Diaz-Uriarte	Noelia García-Rubio (Chair)

Exhibitors

Revolution Analytics and RStudio will be exhibiting in the hall of the Faculty of Economics and Business Sciences. The publishers John Wiley & Sons, Springer and Taylor and Francis will be exhibiting as well.

MEDICAL AND EMERGENCY INFORMATION

Medical assistance

There is not a Health Clinic on campus, but there is a hospital close to the main campus, as shown in the map on page 7. Visitors in need of emergency assistance can dial (free of charge) the national emergency line at 112.

Emergency services and fire procedures

Revisar

For help in an emergency dial 112. Visitors are asked to familiarise themselves with the University's fire procedures which are displayed in the university buildings.

On discovering a fire in a building:

Raise the alarm by breaking the glass in the nearest *Break Glass* point.

On hearing the fire alarm:

Stop what you are doing.

Leave by the nearest Fire Exit.

Walk calmly, do not run.

Do not stop to collect personal belongings.

Make your way to the nearest evacuation point, standing well clear of the building.

Do not re-enter the building until told to do so by the Fire Service or University Security Staff.

Reporting incidents

In the event of an accident or other incident occurring on University premises, please report immediately to the porter's lodge (Ext. 2105) who will then take appropriate action.

TUTORIALS

Tuesday 9th July

Participants are welcome to arrive at 08:30 for registration in the Faculty of Economics and Business Sciences. The morning tutorials will be held from 09:30 - 13:00, with a break for coffee at 11:00 - 11:30. Lunch (provided for all tutorial participants) is scheduled for 13:00 - 14:30. The afternoon tutorials will be held from 14:30 - 18:00, with a break for coffee at 16:00 - 16:30.

Morning Tutorials

- ▷ **Esteban Alfaro, Matías Gámez and Noelia García:** Classification with Individual and Ensemble Trees
- ▷ **Jason Bryer and Robert Pruzek:** Introduction to Propensity Score Methods with R
- ▷ **Romain François and Hadley Wickham:** C++ and Rcpp for beginners
- ▷ **Markus Gesmann and Diego de Castillo:** Interactive web graphics with R and googleVis
- ▷ **Stephanie A. Kovalchik:** Performing Meta-Analysis with R
- ▷ **Mark van der Loo and Edwin de Jonge:** An introduction to data cleaning with R
- ▷ **Martin Morgan:** R/Bioconductor for Analysis and Comprehension of High-throughput Genomic Data
- ▷ **George Ostrouchov and Drew Schmidt:** Programming with Big Data in R
- ▷ **Xavier de Pedro:** Web 2.0 interfaces for R with Tiki
- ▷ **Havard Rue:** Bayesian computing with INLA: An introduction
- ▷ **Garrett Golemund:** Data visualization with ggplot2

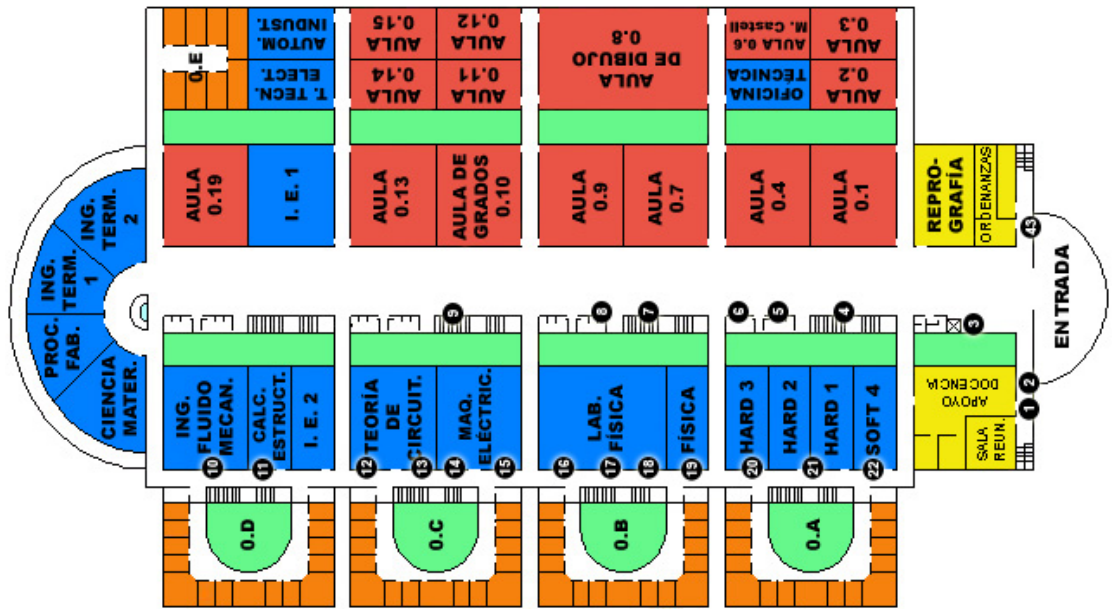

Afternoon Tutorials

- ▷ **Roger Bivand:** Using Spatial Data
- ▷ **Karim Chine:** R and Cloud Computing for Higher Education and Research
- ▷ **Andrea Dessi, Enrico Branca, Federico Figus:** Applied Financial Analysis and Human Capital Risk Management
- ▷ **Marco Scutari:** Learning Bayesian Networks in R: an Example in Systems Biology
- ▷ **Max Kuhn:** Predictive Modeling with R and the caret Package
- ▷ **Rui Paulo and Jesús Palomo:** Statistical Analysis of Computer Models using R
- ▷ **Josh Paulson and Joe Cheng:** Developing web applications with R and shiny
- ▷ **Pete Philipson:** Joint Modelling of Repeated Measurements and Time-to-Event Data
- ▷ **Andy South:** Making beautiful world maps with country-referenced data using rworldmap and other R packages
- ▷ **Tobias Verbeke and StephanWahlbrink:** Eclipse/StatET and Architect for Professional R Development
- ▷ **Alex Zolotovitski:** How to work with large R projects

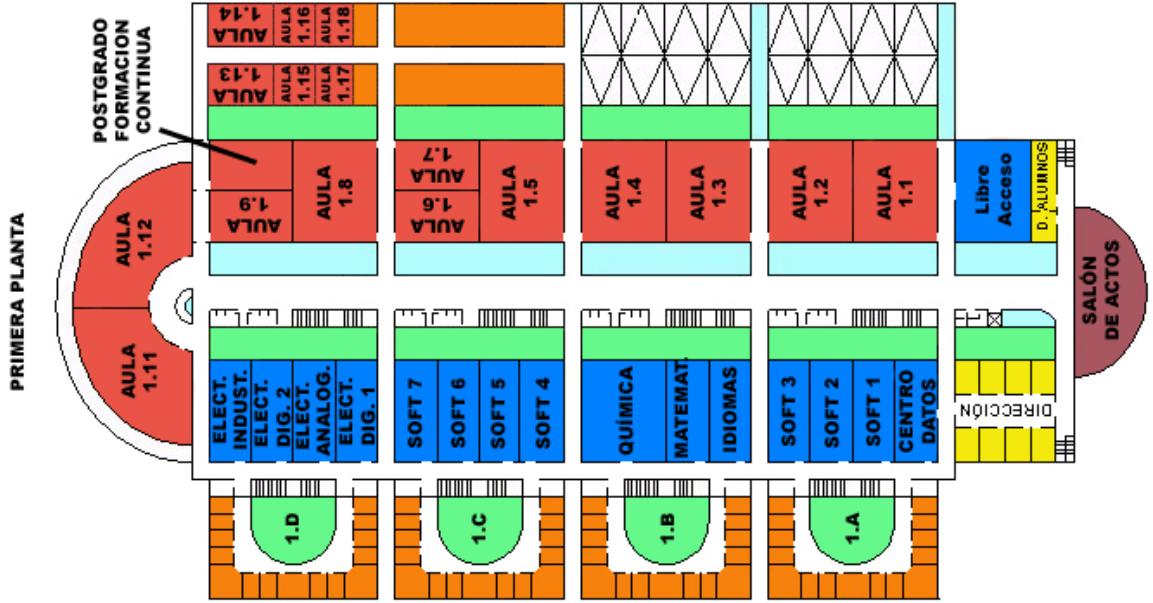

Opening Mixer

All conference attendees are welcome to join us for drinks at the gardens of the Chamber of Commerce in the city centre (see location in the map on page 7), 20:00 - 23:00. Beer, wine, non-alcoholic drinks, tapas and light snacks will be available for all attendees.

	17:50 Tapas Break, sponsored by R-Studio	
	Kaleidoscope/Lightning Talks	18:20 Kaleidoscope I, FEBS 1, Chair: George Ostrouchov Marco Scutari packdep: network abstractions of CRAN and Bioconductor Douglas Mason The Beatles Genome Project: Cluster Analysis of Popular Music in R Richard Cotton The secrets of inverse brogramming
		Kaleidoscope II, FEBS 2, Chair: David Conesa Charles DiMaggio Mapping Hurricane Sandy Damage in New York City Graeme Hickey Unlocking a national adult cardiac surgery audit registry with R Alexander Bertram Renjin: A new R interpreter built on the JVM
		Lightning Talks I, FEBS 9, Chair: Emilio L. Cano Jonathan Cornelissen DataMind.org: developing an interactive online education platform for R Joseph Rickert Revolution Analytics supporting the R Community Gergely Daróczi Transforming R objects to Pandoc's markdown William Hughes A Simple (Simplistic?) Approach to Conjoint Analysis using R Tal Galili Updating R on Windows/Mac (the installr package) Catherine Hurley Seriation for visualisation with package DendSer Markus Gesmann R in Insurance Aleksandar Blagotić? Rapport - reproducible statistical templates David Smith What is R? (with a surprise) Kevin Moore Breaking the mould without breaking the system - the challenges of change Sascha Frydman Mapping the Human Brain: How I Connected an MRI Analysis System with Rcpp Scott Sherrill-Mix glmnet and latent HIV: twists in the hunt for a cure
		Lightning Talks II, FEBS 10, Chair: Virgilio Gómez-Rubio Karsten Weinert Handling data with the datamart package Jan Graffelman Visualizing correlation matrices with R Romain Francois Rcpp is ready Andy South Mapping half a million petition signatures using R Ramon Diaz-Uriarte Using R for the parallelized analysis of big genomics data Jonathan McPherson RStudio Debugging Features Preview JJ Allaire Reproducible Presentations with RStudio Thierry Onkelinx Using mixed models for quality control of citizen science data Alexander Meyer Transcatheter Heart Valve Registry Data Explorer - a Shiny Use Case Mario Inchiosa 10 Reasons to Use Revolution R Enterprise - Free to Academics Alex Zolotovitski R work journal Wolfgang Raffelsberger Hints for R faster R code Przemyslaw Biecek R packages with PISA data. Let's learn about education!
		21:30 Conference Dinner, Restaurant "Casino Primitivo"

Friday 12th July

09:00	Invited Talk, Paraninfo, Chair: TBC Steve Scott	Bayesian computation in C++ with R as an interface
Focus VII	10:00 Visualization/Graphics I, FEBS 1, Chair: Hadley Wickham	
	Vladimir Skvortsov	Radar data acquisition, analysis and visualization using reproducible research with Sweave
	Sacha Epskamp	Network Visualizations of Statistical Relationships and Structural Equation Models
	Oliver Bracht	tableR - An R based approach for creating table reports from surveys
	Kimberly Speerschneider	likert: An R Package for Visualizing and Analyzing Likert-Based Items
	Richard Heiberger	Design of likert graphics with lattice and mosaic
	High performance computing, FEBS 2, Chair: Marco Scutari	
	Emma Huang	Facilitating genetic map construction at large scales in R
	Drew Schmidt	Elevating R to Supercomputers
	Jan Vitek	R in Java: Why and How?
	Junji Nakano	Rhpcc: A package for High-Performance Computing
	Modelling and Optimization, FEBS 9, Chair: Francisco Parreño	
	Tomoaki Nakatani	DCchoice: a package for analyzing dichotomous choice contingent valuation data
	Aditya Bhagwat	Systems biology: modeling network dynamics in R
Ching-Shih Tsou	Evolutionary multi-objective optimization with R	
Emilio L. Cano	An integrated Solver Manager: using R and Python for energy systems optimization	
GUIs/Interfaces, FEBS 10, Chair: Jan Graffelman		
Jorge Luis Ojeda Cabrera	Using Lazy-Evaluation to build the G.U.I.	
Reijo Sund	Survo for R - Interface for Creative Processing of Text and Numerical Data	
Zdzisław Piasta	Using R in teaching statistics, quality improvement and intelligent decision support at Kielce University of Technology	
11:20 Tapas Break, sponsored by TIBCO		
Focus VIII	11:50 Visualization/Graphics II, FEBS 1, Chair: Jason Bryer	
	Willem Ligtenberg	A ggplot2 builder for Eclipse/StatET and Architect
	Jason Waddell	Visualizing Multivariate Contrasts
	David Scott	metaplot: Flexible Specification for Forest Plots
	Franciso	GaRGoyLE: A map composer using GRASS, R, GMT and Latex
	Alonso-Sarría	
	High performance computing II, FEBS 2, Chair: Felipe Ortega	
	Dan Fraser	Open Source Product Creation, Bosco Team
	Yann Richet	Practical computer experiments in R
	Hannes Mühleisen	Symbiosis - Column Stores and R Statistics
	Michael Sannella	Memory Management in the TIBCO Enterprise Runtime for R (TERR)
	Reproducible Research, FEBS 9, Chair: Emilio L. Cano	
	David Montaner	TiddlyWikiR: an R package for dynamic report writing.
	Randall Schumacker	Synthesis of Research Findings Using R
Isaac Subirana	compreGroups updated: version 2.0	
Statistical Modelling III, FEBS 10, Chair: Rui Paulo		
Anabel Forte Deltell	BayesVarSel. An R package for Bayesian Variable Selection.	
Dalia Chakrabarty	Bayesian learning of model parameters given matrix-valued information, using a new matrix-variate Gaussian Process.	
David Conesa	FluDetWeb: an interactive web-based system for the early detection of the onset of influenza epidemics	
Jason Osborne	Looking for (and finding!) hidden additivity in complete block designs with the hiddenf package.	
13:10 Closing Remarks, Fac. of Economics and Business		
13:30 Lunch/Paella		

NOTES

Printed abstracts will not be provided at the conference. The abstract booklet is available to view at http://www.edii.uclm.es/~useR-2013/docs/user2013_abstract_booklet.pdf.

Please note that there are three different formats for contributed talks:

useR! Kaleidoscope: These sessions will give a broad overview of the many different applications of R and should appeal to a wide audience.

useR! Focus Sessions: These sessions will focus on topics of special interest and may be more technical.

useR! Lightning Talks: These sessions, with oral presentations of 5 minutes, provide a platform for participants to speak on any R-related topic and should particularly appeal to R newbies.

Information for Speakers, Session Chairs and Poster Presenters

- ▷ Presenters of Kaleidoscope and Focus contributed talks, please note that your talk is scheduled for 17 minutes, followed by 3 minutes discussion.
- ▷ Presenters of Lightning talks, please note that your talk is scheduled for 5 minutes, with 1 minute question/transition time. A variation of the *pecha kucha* and *ignite* formats will be used, in which you must provide 15 slides to accompany your talk and each slide will be shown for 20 seconds. Slides must be provided in PDF format and sent to useR-2013@R-project.org by 17:00 GMT, Friday 5 July, 2013.
- ▷ Each useR! Invited Lecture will last 45 minutes, with 10 minutes at the end of the lecture reserved for questions.
- ▷ Technical details: All lecture rooms are equipped with an LCD projector and a computer or laptop that is connected to the internet. Unless speakers require their own laptop for software demonstrations, speakers are expected to ensure that a PDF of their presentation slides is on the computer provided, before the start of their session. For presenters of Lightning Talks, this is achieved by sending the slides in advance as described above; for presenters of other talks, please see the conference assistant in the relevant lecture room to arrange transfer of your slides. Conference assistants will be available in the lecture rooms at least 10 minutes before the program starts each day and at least 10 minutes before the program recommences after each coffee or lunch break. Please arrive well before the start of your session and introduce yourself to the Session Chair. During your talk, please look out for the countdown cards that the Chair will use to signal that your time is coming to a close.
- ▷ Session Chairs: Please check the Registration Desk to know whether all your speakers have arrived to the conference prior to your session. Please arrive well before the start of your session to meet the speakers and ensure that they have a PDF of their slides on the room computer. Countdown cards will be provided to help you keep the speakers to time. If we are aware that a speaker is missing up to 2 hours prior to the relevant session, then the other talks will be brought forwards and a notice placed on the News Board, otherwise can we please request that Chairs keep to the timetable, and in the event of a missing speaker, advise the audience to go to an alternative talk.
- ▷ For those preparing posters, the poster boards can accommodate posters of size A0 (Portrait) or A1 (Landscape). Poster presenters should arrive at least 15 minutes prior to the start of the poster session to put up their poster. Boards will be put in place on Wednesday morning. Posters will have allocated boards as numbered in the schedule. Presenters should stay in the vicinity of their poster for the first hour of the session. Please take down your poster at the end of the session; if you are unable to stay until the end (20:00) remaining posters will be removed and can be retrieved from the registration desk the next day.

Thank you

to all our generous sponsors!

WILEY
